---

Nice little game for a few hours of hidden object/puzzle goodness. The game is fairly easy, with some puzzles a decent challenge. Would have been nice for some voice acting to enhance the theme, which really is nothing to write home about, but is engaging nonetheless. Recommended to newer players of this genre. I'll give this a sideways thumb.. It's a bit short, but the story is great. Wouldn't buy it for full price though I feel it's too short for that price tag.. can't play/ loads the splash screens but then noting but an empty black screen. tried all of the compatibility options and just can not get it to play on windows 10.. The game is pretty nice, especially the story. Its a horror-HOG, which is a nice mix. I would rather like when the characters would talk and the speech wouldn't be written but in this game it doesn't really matter. There is not that much talking.. Average to okay story but the number of bugs means it hasn't been playtested properly before release. Issues include the Smiley Face Tokens which can prevent you from progressing if you fail to pick them up at the right time, a full screen bug which affects the cursor and some of the later messages appearing as ascii characters.. Average to okay story but the number of bugs means it hasn't been playtested properly before release. Issues include the Smiley Face Tokens which can prevent you from progressing if you fail to pick them up at the right time, a full screen bug which affects the cursor and some of the later messages appearing as ascii characters.
